

ACTnow's Note

It is an unprecedented situation where the Muslims in the country were hoping for a better condition for their upcoming festive celebration, however as the cases have been soaring high in recent announcements, MCO 3.0 had been implemented to multiple locations in Selangor (6 to 17 May) and Kuala Lumpur (7 to 20 May). Raya Open house is no longer allowed, business operations have been given restricted operating hours, as well as no dine-in are allowed in the MCO 3.0 area. The Selangor state government too, had given order for the closure of Bazaar Ramadhan. This is all in the effort of flattening the curve to protect our country, especially our near-collapsing healthcare system. The frontliners last straw of help is the public by obeying SOP and staying home.

If the healthcare system breaks down, we may go through the same situation as India at the moment.

Breaking the world's number of daily cases over and over again, with the collapsed healthcare system in which oxygens and beds are scarce as well as long-queue at the crematoriums. India is going through one of its toughest times ever since the pandemic hit. Looking at such heartbreaking conditions in India, ACTnow does not wish Malaysia to go through the same thing, we should take India as the example of what will happen if the healthcare system breaks down. Not to forget, our frontliners, too, are mentally and physically at their breaking point.

ACTnow urges the public to obey and look at the critical consequences if we do not take this pandemic seriously. All we have to do is as simple as keeping social distance, wear a mask at all times, and sanitize your hand regularly. If not needed, do not exit the house. Together, we can flatten the curve and prevent being the second India.
