

## ACTnow's Note

### #HELLTOSCAMMERS

According to The Sun - More than 50 Malaysians are being held captive in Cambodia, Myanmar, Vietnam and Thailand by online scam syndicates, according to the MCA public services and complaints department.

The department's head, Datuk Seri Michael Chong, said it had received calls from some of the victims the past two months asking to be rescued from captivity.

He said the victims had been deceived with offers to work as telemarketers with salaries of US\$3,000 to US\$4,000 per month.

One of them, who wants to remain anonymous, said there were 13 Malaysians including five women, aged between 17 and 36, in the same area as him who were forced to work as 'scam operators'.

"We were told to scam our customers, and if we could not do that, we would be confined in a room without food for two or three days," he said.

"We are working together with the embassies and Royal Malaysia Police to rescue those victims. We also appeal to young people to be more careful and not be easily cheated and blinded by the high salary that the syndicates offer," he said at a press conference

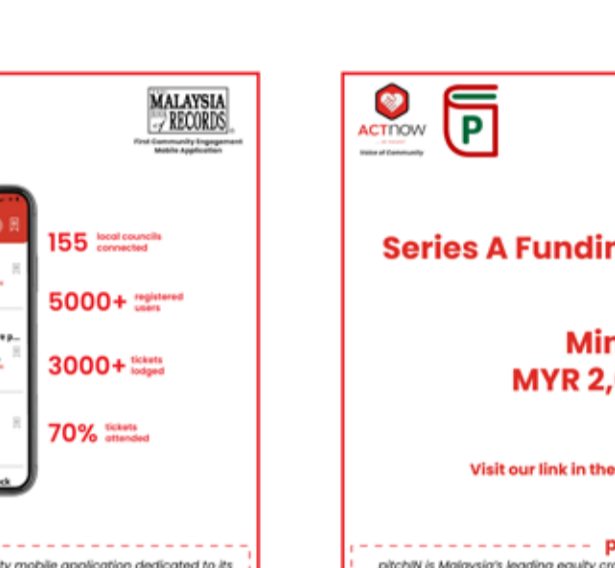

According to The World of Buzz - At a recent press conference held by the Malaysia International Humanitarian Organisation (MHO), a few families were present, and they had a lot of "insider's knowledge" to share with the public.

One of the victims, who is currently trapped in Cambodia with the syndicate revealed that a lot of Malaysian victims of the syndicate are dead, and the number of casualties of Malaysian victims is truly a nightmare fuel - as high as 10,000 deaths!

Weak performance means the victims are not bringing any money to the syndicate, so to "make up" for the losses, the unfortunate women will be forced and sold to prostitution to make more money for the syndicate.

Some women were forced to lose weight in 3 months before starting to receive "customers".

Ticket Number: MY0002629

Referring to the report made by our user on illegally clearing trees, MPAJ responded to ACTnow and notified that the said location is not risky because steep slopes are classified as slopes only when it is within 5 meters. Hence, the area is not under the threat of landslides and the house owners at the said location have the right to cut down trees planted by them but not the trees planted by the council since it is under the maintenance of the council.

### One garbage bin does not seems to be enough for the residents here!

Ticket Number: MY0001709

This dumping site could really use 2 more extra garbage bins just by looking at the amount of garbage on the ground. Reporter spotted this in Klang and is worried of health hazards especially towards children who are often in this area. Why are the rubbish thrown on the ground when the bin is not even filled up yet?
